

The figure displays a 4x4 grid of heatmaps, with rows labeled 'a' through 'e' and columns labeled 'a' through 'e'. Each heatmap shows a distribution of values, with a color scale ranging from 0.00 (light yellow) to 0.2 (dark purple). The heatmaps are arranged in a grid, with the top row labeled 'a' and the bottom row labeled 'e'. The left column is labeled 'a' and the right column is labeled 'e'. The heatmaps show varying patterns of high and low values across the grid.
